

**GREEN HITECHS**

*Drink Fearlessly!*

## Gravity Water Filter

*Clean, Clear, Great-Tasting Water From any Source  
Without Electricity, Water Pressure or Chemicals!*

**Our Portable Water Filter System uses gravity & head pressure to filter water in the upper chamber through to the lower purified water reservoir. This allows the water enough contact time with our nano-filtration elements to remove all commonly found contaminants, including: bacteria, cysts and virus, up to 99.99999% (7 log).**

### Compare to Bottled Water

- Less Expensive
- Easier to Store & Transport
- Cleaner, Safer Water

## Clear Benefits

**Long-Lasting** – One set of Green Hitech Gravity Filters lasts for 6,000+ gallons

**Easy Assembly** – No plumbing or electrical hookup – Sets up in minutes

**Portable** – Easy to disassemble and allows compact storage for trips

**Low Cost** – Much less expensive than bottled water

## Clear Purification

**Highly Effective** – Removes 99.99999% (7 log) of contaminants, including viruses

**Military Spec** – Passed NSF P248, "Emergency Military Operations Microbiological Water Purifiers standards tests.

**Long-Lasting** – Each filter is rated for 3,000 gallons (about 2+ years)

**Self-sterilizing** – Filters are bacteriostatic and prevent mitosis or the growth of any micro-organisms.

**Easy to Maintain** – When flow rates begin to diminish, filters are easily cleaned, prolonging their life and usefulness.

## Clear Versatility & Convenience

*The Green Hitech Portable Water Filter System is useful for many applications, including but not limited to:*

- Everyday Household Use
- Camping, Hiking, Hunting & Outdoor Recreation
- NGO's & Humanitarian Assistance
- Emergency Preparation, Disaster Relief and/or Mission Projects Worldwide
